

Daily and Supporting Learning Targets

- Opening A: I can sort words with the short vowel sounds /i/, /o/, and /u/.
 - I can say a two- or three-phoneme word and segment it (break it apart) into individual phonemes (sounds) (in order).
 - I can identify and say the final phoneme (sound) in a one-syllable word.
- Work Time A: I can collaborate with my teacher to write a sentence with CVC, CVCC, and high-frequency words. (RF.1.1, RF.1.2, RF.1.3, L.K.2)
 - I can look at each consonant and say its sound.
 - I can identify the short sound for each vowel.
- I can identify features of a sentence, including the first word, capital letters, and ending punctuation.
 - I can say a two-phoneme or three-phoneme word and segment it (break it apart) into individual phonemes (sounds) in order.
 - I can use what I know about common spelling patterns to correctly spell words with those common patterns.

Ongoing Assessment

- Observe students during Opening A. Determine whether they can make the sound for letter(s), decode, and read familiar words using letters and sounds from this cycle.
- Observe students sharing the pen (or following along) during Work Time A. Determine whether they can write the given sentence following basic concepts of print such as directionality and spacing.

Agenda

1. **Opening (3–5 minutes)**
 - A. Reviewing Skills/Knowledge: Sort It Out
2. **Work Time (10–15 minutes)**
 - B. Interactive Writing: Writing Regular and Familiar One-Syllable Words
3. **Closing and Assessment (2 minutes)**
 - C. Reflecting on Learning
4. **Differentiated Small Group Instruction and Rotations (40 minutes)**

Teaching Notes

In advance:

- Prepare:
 - T-chart: Columns for short vowels /o/, /i/, /u/
 - Sort It Out Word Cards (see supporting materials)
 - Snapshot Assessment (optional; one per student)

- Predetermine one sentence to be used for the Interactive Writing instructional practice (suggested sentences: “The fish swims by the frog,” or “There was a hush at dusk by the pond”).

Vocabulary

Key:

(L): Lesson-Specific Vocabulary

(T): Text-Specific Vocabulary

- interact, interactive, proficient (L)

Materials

- ✓ T-chart (new; teacher-created; see Lesson 39 supporting materials)
- ✓ Sort It Out Word Cards (one set for teacher use)
- ✓ Whiteboards (or sheet protectors with white cardboard inside; one per student or pair)
- ✓ Whiteboard markers (one per student or pair)
- ✓ Whiteboard erasers (or tissues, socks, etc.; one per student or pair)
- ✓ Snapshot Assessment (optional; one per student)

Opening

A. Reviewing Skills and Knowledge: Sort It Out

- (Suggested transition song, sung to the tune of “Sound Off” or “Cadence Count/Duckworth Cadence”):

“Sorting words is lots of F-U-N (fun!) We made a change to R-U-N (run). A different vowel changes run to ran. We can find some rhymes like can and tan. Look for words that sound the same. That’s how we’re going to play a sorting game.”

- Begin the Sort It Out instructional practice:
 1. Teacher shows students the **t-chart** and introduces the three columns: /i/, /o/, and /u/.
 2. Student volunteers pronounce the sound for each column.
 3. Teacher holds up the first **Sort It Out Word Card** and reads it aloud: “flop.”
 4. Teacher says: “I am going to say the word again slowly, segmenting each sound, so I can listen for the vowel sound that I hear: /f/ /l/ /o/ /p/—‘flop.’ I hear the /o/ sound in the middle, so I will place this card in the /o/ column.”
 5. Teacher reads the next Sort It Out Word Card aloud, but does not show it: “slip.”
 6. Students chorally repeat the word, segmenting each sound: /s/ /l/ /i/ /p/.
 7. Students use a hand signal to indicate the column in which the word belongs. (/i/)
 8. Teacher shows the Sort It Out Word Card. Students give a thumbs-up if their answer was correct.
 9. Teacher (or student volunteer) places the card in the correct column.
 10. Repeat steps 5–9 with remaining cards: “plum,” “glob,” “flick,” “slug,” “plot,” “glum,” “drop,” “trick,” “grub.”

Meeting Students' Needs

- Consider asking student volunteers to lead step 5. Full Alphabetic students may lead this instructional practice once it is learned.

Work Time

A. Interactive Writing: Writing Regular and Familiar One-Syllable Words

- (Suggested transition song, sung to the tune of “The More We Get Together”):
“Now let’s all be writers, be writers, be writers. Now let’s all be writers like the authors we love. Listen to the sentence, the sentence, the sentence. Listen to the sentence, we will write as a group.”
- Optional: Distribute **whiteboards**, **whiteboard markers**, and **whiteboard erasers** (or have students follow along by skywriting).
- Begin the Interactive Writing instructional practice:
 1. Teacher models the Interactive Writing instructional practice with one word.
 2. Teacher reads the chosen sentence aloud and taps out the words on the paper/whiteboard.
 3. Students repeat the sentence (rehearse a few times as needed).
 4. Teacher says the first word in the sentence.
 5. Teacher invites a student volunteer to the board to write the letters, parts, or entire word.
 6. Remaining students follow along with whiteboards or skywriting.
 7. Teacher asks:
“What do we need to remember to do to this first letter so our reader will know that this is where our sentence starts?” (Capitalize it.)
 8. After the first word in the sentence is complete, teacher asks:
“What comes after a word?” (a space)
 9. Teacher taps out the remaining words of the sentence.
 10. Repeat steps 5–6 with the remainder of the sentence. Teacher may write some of the letters, word parts, or words to speed up the process if necessary.
 11. Teacher asks:
“What do we need to remember to put at the end so that our reader knows we are done with this sentence?” (a period)
 12. Teacher points to each word as he or she reads the completed sentence aloud.
 13. Students read the completed sentence aloud.

Meeting Students' Needs

- For ELLs: Consider using pictures to clarify any nouns or verbs in the sentence that may be new. Act out verbs for clarification. Letter-sound connections are strengthened when students see they are tools that allow them to communicate an idea.

- If students are writing familiar words, remind them that these are familiar words and they should try to remember how the words were spelled when they read them. This supports the goal of automaticity with letter-sound connections.
- If students need help independently recording the grapheme for each sound on their whiteboards, provide and/or model with sound boards.

Closing and Assessment

A. Reflecting on Learning

- Emphasize that effective learners keep track of and reflect on their own learning. Point out that they are doing this each time they consider how what they did today helps them become more proficient readers.
- Remind students that today they reviewed letters and sounds and irregularly spelled words, practiced decoding, and used the skills they've been learning to write a sentence together.
- Invite students to reflect independently. Ask:

“What did you do today that is helping you become a more proficient reader?”
(Responses will vary. Example: “If we think about how the sounds feel in our mouths, it will help us know what letter to write.”)
- Invite a volunteer to share. Afterward, invite any students who did something similar to indicate that in an interactive way (e.g., stand and turn in place, hop up and down excitedly)

Meeting Students' Needs

- For students who need additional support organizing their ideas: Provide sentence frames. Examples:
 - “When I made the sounds for the word ____, I ____.”
 - “When I wrote the letter ____, I ____.”
 - “When I blended the sounds ____, I ____.”

Differentiated Small Groups: Work with Teacher

Suggested Plan: Teacher works with students in the Pre-Alphabetic, Partial Alphabetic, and Consolidated Alphabetic groups. Teacher will not work with students in the Full Alphabetic group today.

Note: Groups not working with the teacher at a given time should be engaged in purposeful independent rotation work. Refer to the Independent and Small Group Work guidance document for more details (see K–2 Skills Resource Manual).

Pre-Alphabetic:

- Aim small group instruction at building students' knowledge and skills of letter identification and phonological awareness.
- Use the Assessment Conversion chart to determine appropriate Kindergarten lessons and Activity Bank ideas to use in daily small group instruction.

- Lead an interactive writing experience using a different sentence, focusing on initial letters and letter formation. Use a sentence that places letter sounds you are working on at the beginning and end of words. For example, if working on “b,” “d,” and “p,” use “I pet the dog up on the bed.”

Partial Alphabetic:

- Extend or create a new interactive writing piece focusing on VC and CVC words. This may include a new sentence related to the Decodable Reader or the content in the Integrated Literacy Block or a sentence that naturally follows the one written during work time.
- For students working at the early to middle Partial Alphabetic phase, emphasize short-vowel CVC, CVCC, and CCVC patterns, as well as one high-leverage (i.e., can be used a lot in their independent writing), high-frequency word (e.g., “when”).
- For students working at the middle to late Partial Alphabetic phase, consider extending the interactive writing work as described above, as well as a new high-frequency word or one from a previous cycle needing review.
- Related Activity Bank suggestions:
 - An Activity Bank activity from the Decoding and Encoding category (DE) or Phonological Manipulation category (PM)

Consolidated Alphabetic:

- Extend work with interactive writing by inviting students to compose sentences related to the Engagement Text “On the Pond.” (Consider making a copy for each student.) Give individualized feedback to students on conventions of print (including spelling patterns and grammar). Have students share out sentences/stories and reflect on new learning.
- Follow up with the Lesson 51 Word List and exit ticket.
- Check in on Accountable Independent Reading.
