**Lesson 81 Teaching Notes**

**Purpose of lesson and alignment to standards:**

- This lesson introduces a new instructional practice: Poem Launch. Students who used the Kindergarten curriculum will be familiar with this instructional practice. Model and support students as necessary as they familiarize themselves with this routine.
- Opening A introduces the poem that will be used as a shared text in this cycle. The poem includes words that share the /ch/ sound spelled with “-ch” and “-tch.” Students identify words sharing the /ch/ sound as they read the poem, both aloud with the teacher and independently. Consider using this poem during differentiated small groups as well (RF.2.3).
- In Work Time A, students discover spelling patterns in words and apply their knowledge of vowel sounds to identify when each pattern is applied. This knowledge supports students’ ability to decode and encode words by generalizing familiar spelling patterns (RF.2.3, L.2.2).

**How it builds on previous work:**

- Over the course of the modules in the Grade 1 curriculum, students worked with five syllable types (i.e., written patterns representing a vowel sound). These include closed (CVC), open...
Reading Foundations Skills Block

(CV), magic “e” (CVCe), r-controlled, and vowel teams (CVVC, CVV). In this lesson, students practice decoding two-syllable words using combinations of those syllable types.

Down the road:

- In the Closing, students reflect on the role of the individual as part of a larger group in fostering continued growth in knowledge and skills. They consider how they can support the development of their peers and benefit from what those peers have to offer. Consider developing an ongoing routine during which concrete examples are collected and categorized. The collection can be used as a reference for students, encouraging them to enlist peer support when working toward their own personal goals.

Lesson 82 Teaching Notes

Purpose of lesson and alignment to standards:

- In Openings A and B, students work with the Engagement Text: “The Rules of Watering.” This text serves to pique students’ interest about the Decodable Reader, introduced in Work Time B, by incorporating the topic and some words from this cycle into an engaging read-aloud. Students will notice that this Engagement Text has a different format: an informative, nonfiction text.

- In Opening B, consider asking students suggested (or similar) text-based comprehension questions. Although the K–2 Skills Block focuses primarily on RF standards, comprehension is an integral part of reading development. Leading a brief discussion after the read-aloud connects students to key ideas, details, and vocabulary contained within it. Because these questions will likely cause the Opening to take longer than 5 minutes, they are optional. Consider adjusting differentiated small group instruction time accordingly to accommodate the extended Opening.

- In Work Time A, students examine the following high-frequency words: “different,” “doesn’t,” “frequent,” “weather,” “whole,” “won’t,” and “yourself” (RF.2.3f). Students must determine which are “snap” (easily decodable) and which are “trap” (difficult to decode/irregular) words and explain their thinking. Once they have learned the new words they are placed on the classroom Interactive Word Wall.

- In Work Time B, before students read the Decodable Reader: “Watering Your Garden,” alone or in pairs, they search for the high-frequency words from Work Time A. Pairing students during the Decodable Reader routine provides support for those who need it and engages more proficient students to apply their knowledge to support a peer. Have students work individually if you prefer that they receive more individual practice without peer guidance or support.

How it builds on previous work:

- Students apply what they have learned about the spelling patterns “-ch” and “-tch” from the current cycle to decoding words with vowel teams, multisyllabic words, and high-frequency words.

Down the road:

- In the Closing, students reflect on the role of the individual as part of a larger group in fostering continued growth in knowledge and skills. They consider how they can support the
development of their peers and benefit from what those peers have to offer. Consider developing an ongoing routine during which concrete examples are collected and categorized. The collection can be used as a reference for students, encouraging them to enlist peer support when working toward their own personal goals.

Lesson 83  Teaching Notes

Purpose of lesson and alignment to standards:

- In Opening A, students notice that suffixes change the meaning of the base word. They begin to understand that identifying these word parts when they are added to a base word helps them to more easily decode and understand an unknown word.

- In Work Time A, students first brainstorm a list of words spelled with “-ch” and “-tch,” write them on their whiteboards, then check with the larger group to ensure correct spelling. Then, the teacher and class work together to compose and write a silly sentence using some of the words. Because these words are familiar, spellings should be accurate, not invented. Encourage students to recall the specific graphemes (letters) that represent the phonemes in a word. The goal is for students to develop automaticity with the correct spelling and pronunciation of each word.

- Consider recording the silly sentences produced each week during Interactive Writing on chart paper, sentence strips, or a book so those sentences can be displayed and practiced by the group, in pairs, or individually.

How it builds on previous work:

- This lesson addresses the spelling patterns and high-frequency words that have been used throughout the cycle (to decode in isolation, read in a text, and spell words). Students now apply all of these skills to construct a shared sentence. The chosen sentence also reinforces words from the decodable text.

Down the road:

- In the Closing, students reflect on the role of the individual as part of a larger group in fostering continued growth in knowledge and skills. They consider how they can support the development of their peers and benefit from what those peers have to offer. Consider developing an ongoing routine during which concrete examples are collected and categorized. The collection can be used as a reference for students, encouraging them to enlist peer support when working toward their own personal goals.

Lesson 84  Teaching Notes

Purpose of lesson and alignment to standards:

- In Opening A, students identify words that sound the same but are spelled differently (homophones) in a text and use the context to determine the meaning of each word. This supports students’ ability to generalize the spelling pattern used based on the meaning of the word. If homophones have not yet been collected and displayed in the classroom, consider enlarging or writing the text from the opening in this lesson on chart paper and displaying it in the
Reading Foundations Skills Block

classroom for students to reference. This will support eventual generalization of these words for both comprehension and spelling (RF.2.3).

- In Work Time B, students interact with an excerpt from the Decodable Reader: “Watering Your Garden.” They think about how to apply the rules of fluency to this excerpt and work together to read this piece fluently (RF.2.4).

- Consider collecting the sentences and excerpts of text used in the Work Time on chart paper in such a way that they can be practiced by the group, in pairs, or individually. This may involve collecting them into a class notebook, individual notebooks, or displaying them on chart paper.

How it builds on previous work:

- In Opening A, students work with familiar words that are now examined as homophones. Regular examination of those words for known graphophonemic (letter-sound) patterns supports automaticity and commitment of those patterns to memory.

- In Work Time A, students work with short pieces of text containing patterns worked with in this and previous cycles to develop fluency (phrasing, expression, speed, and meaning).

Down the road:

- In the Closing, students reflect on the role of the individual as part of a larger group in fostering continued growth in knowledge and skills. They consider how they can support the development of their peers and benefit from what those peers have to offer. Consider developing an ongoing routine during which concrete examples are collected and categorized. The collection can be used as a reference for students, encouraging them to enlist peer support when working toward their own personal goals.

Lesson 85 Teaching Notes

Purpose of lesson and alignment to standards:

- The Word Workout instructional practice serves as a cycle review. Students are introduced to a new “exercise,” or learning activity, in each Word Workout. These exercises allow students to apply skills learned throughout the cycle in a fun, engaging activity.

- In Opening A, students practice a familiar exercise: Same Sounds. In this cycle, students practice the exercise by applying their knowledge of “-ch” and “-tch” to read and spell words correctly (RF.2.3, L.2.2).

- In Work Time A, the teacher may choose from any of the review exercises taught in Modules 1–2. Students build their workout by practicing these exercises as a review of skills taught thus far. Consider that some exercises may be a better fit for the focus of this cycle so that words with “-ch,” and “-tch” can be included, as well as suffixes “-er” and “-est.” Refer to the Module 3 Overview Assessment section for a list of all exercises introduced in Modules 1–2.

- In the Grade 1 curriculum, a cycle assessment is administered for each cycle. In second grade, the assessments become more time-consuming. As a result, assessments are only administered at mid- and end-of-cycle. For each cycle without an assessment in Modules 1 and 2, a new review “exercise” is introduced. In Modules 3 and 4, the teacher may choose from any of the taught review exercises.

How it builds on previous work:

- This lesson continues work with spelling patterns “-ch” and “-tch.”
Down the road:

- In the Closing, students reflect on the role of the individual as part of a larger group in fostering continued growth in knowledge and skills. They consider how they can support the development of their peers and benefit from what those peers have to offer. Consider developing an ongoing routine during which concrete examples are collected and categorized. The collection can be used as a reference for students, encouraging them to enlist peer support when working toward their own personal goals.
